AUROLUX BACKLIT SOLVENT WF 150

glossy 3566, 150 µm

Glossy backlit film for lightbox advertising.

This glossy, coated polyester film with a light-diffusing back layer has been specially developed for printing with solvent, latex and UV inks and is suitable for use in both indoor and outdoor lightboxes. The particular strengths of this backlit film lie in its very pleasing gloss finish and impressive brilliance in both reflected and transmitted light, which make it ideal for use in daylight and at night. Its particularly high resistance to adverse conditions makes it suitable for application in damp locations or where humidity is high.

Advantages

- Outstanding brilliance in reflected or transmitted light
- High gloss
- Splashproof prints
- Good scratch resistance
- High dimensional stability
