PROFESSIONAL PHOTO PAPER PE 290

glossy 4801, 290 g/m²

Premium photo paper with a fascinating pearl shimmer for truly special photographic applications

Professional Photo Paper PE 290 is a micro porous coated, gloss finish photo paper with a PE film coating on both sides. Effect pigments create a pearl shimmer that lends photos an impressive appearance of depth. Especially developed for printing on aqueous printers, this photo paper boasts a homogeneous gloss with perfect reproduction of colours, as well as black & white prints. The material is also suitable for sheet fed printing with DryLab inkjet printers.

Advantages

- Brilliant colours, fine colour tone differentiation and natural rendering of skin tones
- Optimum contrast and deep, rich blacks
- Very good long-term stability
- Completely odourless
- Quick dry

Das Zeichen für verantwortungsvolle Waldwirtschaft

General tips

The ideal storage conditions are a relative humidity of 35-65% and temperatures of 10-30°. Lamination is recommended to secure long-lasting unchanged image quality because catalytic processes initiated by atmospheric components deteriorate dye colors with time (not valid for pigments). We recommend that cotton gloves are worn to prevent the transfer of dirt, moisture and oils from the skin, as these can greatly impair the print quality.

Physical data

Name	Value	Norm
Weight [g/m ²]	290	ISO 536
Thickness (total) [µm]	270	ISO 534
Opacity [%]	>97	ISO 2471
Chromaticity (D50/2°) M0	L* 90 / a* 0.8 / b* -5	ISO 13655, M0
Gloss (60°)	50	ISO 2813
