

# PROFESSIONAL PHOTO PAPER PE 330

glossy 4800, 330 g/m<sup>2</sup>

Premium high gloss photo paper for outstanding prints

Micro porous coated, glossy photo paper with PE film coating on both sides for use with aqueous printers. Prints on this paper literally shine in terms of their colour brilliance, sharpness and vibrant colours. Thanks to its special coating, Professional Photo Paper PE 330 achieves an excellent reproduction of details, optimum contrast and deep, rich blacks. The product boasts a homogeneous gloss in printed and unprinted areas and very good processing characteristics.

## Advantages

- Brilliant colours, fine colour tone differentiation and natural rendering of skin tones
- Perfect grey balance
- Very good long-term stability
- Completely odourless
- Quick dry

## General tips

The ideal storage conditions are a relative humidity of 35-65% and temperatures of 10-30°. Lamination is recommended to secure long-lasting unchanged image quality because catalytic processes initiated by atmospheric components deteriorate dye colors with time (not valid for pigments). We recommend that cotton gloves are worn to prevent the transfer of dirt, moisture and oils from the skin, as these can greatly impair the print quality.

## Physical data

Name	Value	Norm
Weight [g/m <sup>2</sup> ]	330	ISO 536
Thickness (total) [µm]	275	ISO 534
Opacity [%]	98	ISO 2471
Gloss (60°)	24	ISO 2813
Chromaticity (D50/2°) M0	L* 93.5 / a* 1.8 / b* -6.6	ISO 13655, M0

## Technologies

The values stated above are only for orientation. Before using our print media please check its compatibility for your printer and the intended application. We cannot be held responsible for any mistakes resulting from technical changes in the printing process and with printing components. Product design changes to our products technical developments may be carried out without prior notice.
