

## 3501 – PolySOL PET Banner M1 290 satin

### Intended use

Media for inkjet printers

### Composition

Coated polyester textile. Coating (approx. 5-10 %w/w) containing binders, silicium dioxide, binders and additives.

As flame retardants the product contains Antimony sulfide, Decabromobiphenylether and Ammonium Polyphosphate.

### Storage

The storage should take place in a climate from 30 to 65 % relative humidity at a temperature from 10 to 30°C. Keep the product in the original packaging (cardboard box and PE bag).

### Health and safety

This product causes no specific health or safety hazard, if used as intended. Potential threat of cuts from sharp edges. If dust particles are produced during cutting then a respiratory mask is recommended for protection.

### Fire hazard

In case of fire, air-independent breathing equipment should always be available because, as with organic materials in general, formation of carbon monoxide (CO) and carbon dioxide (CO<sub>2</sub>) could occur.

### Waste disposal

May be disposed of as domestic waste. Disposal in accordance with local, state or federal regulations.

### Regulatory information

PolySOL PET Banner M1 290 satin is not subject to the regulations on transport and labelling that apply to dangerous substances. Polybrominated biphenyls are listed in California's Proposition 65 and EC 1907/2006 (REACH) .

Decabromobiphenylether is listed in the SVHC, candidate list of the 2019-01-15. The content is above 0.1%. To the best of our knowledge, it is not a significant hazard in compound form, due to dilution and encapsulation. According to REACH it is not allowed to use the product for textiles which comes into direct contact with skin (clothing).

### Additional information

---

### Company certificates

SiHL AG is certified according ISO 9001, ISO 14001 and FSC® C116787.
